The Philadelphia Star Route Cases.—In the star route trial in Philadelphia, yesterday, Joseph R. Black, one of the defendants, testified that he was to furnish the money and security to run the contracts, and Col. Joseph McKibben was to give his experienced attention to the securing and fuffiment of the contracts. McKibben assured him that it was not necessary that the bidsured him that it was not necessary that the bid-ders themselves should be responsible so long as the security was good and sumetent, with the unthe security was good and sufficient, with the understanding that he was to be entirely responsible for the amount of the bonds, and the proposals and contracts were executed. McKibben, with the assistance of George H. Giddings, who was sent west to superintend the routes, had obtained numerous drafts of money from him upon one pretence and another for the maintenance of the routes, and he never received a cent of profit. Under cross-examination Black testified that he had seen Thomas A. McDevitt, who was convicted of postal frauds on Friday, in McKibben's office acting as a clerk. He said two sets of bids were made out, so that in case the bidding was not as low as McKibben had expected it would be, the high ones and not the low odes would be used. He did not know until Monday that both sets were put in.

Mr. Fred. Douglass and Virginia Politics. HE DECLARES HIMSELF IN FAVOR OF THE MAHONE

MOVEMENT. The speaker is closely allied to Mr. Blaine, and it is given out that he will tell the Virginia republicans, upon Mr. Blaine's authority, that those who continue to act with Mahone in this state will not hereafter be recognized by the national republican leaders

and cannot hereafter expect any benefit from that WHAT MR. DOUGLASS SAYS. Mr. Douglass this morning was called on by a propounded to him, said: "It is not true that I and Mr. Blaine will stump Virginia. I am just as heartily in favor of the Mahone movement in Virginia as any man who is now on the stump assisting in that movement. I am in favor of any de-cent movement looking to the abolition of the color line in American politics. My first impressions were against the movement, but I find it about the only way by which the people of that state can enjoy the franchise. Yes, you may say I am not going to Virginia at all. I have here invi-tation to go to Ohio, which I will have to decline, for I am getting now too old to stand travel."
